

Job description

A global company with a local presence. Actlabs is a Canadian owned company founded in 1987. We are recognized throughout the world as a leader in analytical testing and development services. With over 30 years of experience, our analytical laboratories provide high quality analysis impacting every aspect of our life including: Mining and Mineral Exploration, Agriculture, Cannabis, Environmental, Forensics, Life Sciences, Material Testing, Occupational Health and Petroleum Industries.

We're investing for the future, implementing innovative strategies to allow us to continually strengthen and lead in the industries that we serve. This is an exciting opportunity for anyone who wants to join an established and growing company. At Actlabs, we are committed to rewarding and retaining people who are passionate about making a positive impact in their professional and personal lives.

General Description – General Labor Position

Sample Preparation Technicians will be working with rocks and preparing them for analysis. These positions are not suitable for those who cannot do periodic lifting throughout the day. Due to safety concerns, contact lenses are not permitted to be worn in the labs at anytime. Strict adherences to safety procedures are required.
